12-15 October 2023

Antalya, Türkiye

On behalf of the Phytochemical Society of Europe and the Organizing Committee, we are delighted to invite you to join the conference on 'Natural drug discovery: Current approach and future perspectives', which will be held in Antalya, Turkiye, 12-15 October 2023.

Invitation to Conference

Phytochemical Society of Europe

On behalf of the Phytochemical Society of Europe and the Organizing Committee, we are delighted to invite you to join the conference on 'Natural drug discovery: Current approach and future perspectives', which will be held in Antalya, Turkey, 12-15 October 2023.

The conference's main objective is to bring natural product and food scientists together to share the most recent research findings, concepts, and experiences. The congress will focus on all main topics of natural products research: Isolation and structure elucidation; omics-based approaches; ethnopharmacology and phytotherapy; biosynthesis and biotechnology of secondary metabolites; production, quality and regulatory aspects of herbal preparations, food supplements as well as functional foods; natural products in veterinary medicine, cosmetic and food area.

Antalya is one of the world's foremost tourist destinations where mountains and sea meet each other. The city has many well-preserved historical sites and ancient settlements dating back thousands of years. There is history, natural beauty, and a rich variety of local lifestyle to be discovered.

We warmly invite you to this exciting conference. Please join us and have a great time in Antalya!

Professor Didem Şöhretoğlu
Chair of congress
